Technologies

Frontend

JavaScript, HTML5, CSS3,
jQuery, Underscore, SASS,
LESS, Backbone, Socket.io,

Short biography

I'm a full-stack developer focusing on front-end with 10+ years experience. I'm passionate about design, UX, music and creative hobbies in general. I've been part of two startup accelerators.

Education

- > 2003 -
Self taught web developer
- > 1997 - 2001
IT focused high school

Work experience

- > **Stunn**
2013 - 2016
I founded a startup with the goal to build a browser based video editing platform. We reached private beta. I created all frontend code, UX.
- > **CloudDeck**
2012 - 2013
I founded a music startup to collect and analyze music from the web with my own search bot, using the SoundCloud API.

WebAudio, Canvas, Paper.js,
Bootstrap, Material design,
Polymer, Semantic UI

Backend

PHP5, Laravel, CodeIgniter,
Node.js, WebGL, Three.js,
Processing, C++

Workflow

Git, GitHub, BitBucket, Gulp,
Bower, NPM

Spoken languages

- › Hungarian – native
- › English – fluent
- › German – basic

› **Rebel Rouse digital agency**

2010 - 2012

I was the head of development and UX. I helped to translate client needs to production ready specifications.

› **Skyweb web development studio**

2007 - 2010

My first venture to build websites and web applications for clients. As a founder I participated and oversaw development.

List of my projects

› **Coding Sans website**

A world class software house focusing on JavaScript

[Visit project](#)

› **Total Cloud Consulting**

Website for a company who provide AWS consulting

[Visit project](#)

› **Mosaik Space**

A popular co-working space in Budapest

[Visit project](#)
